August 2025 to November 2025 News Reports

Progress on School Infrastructure

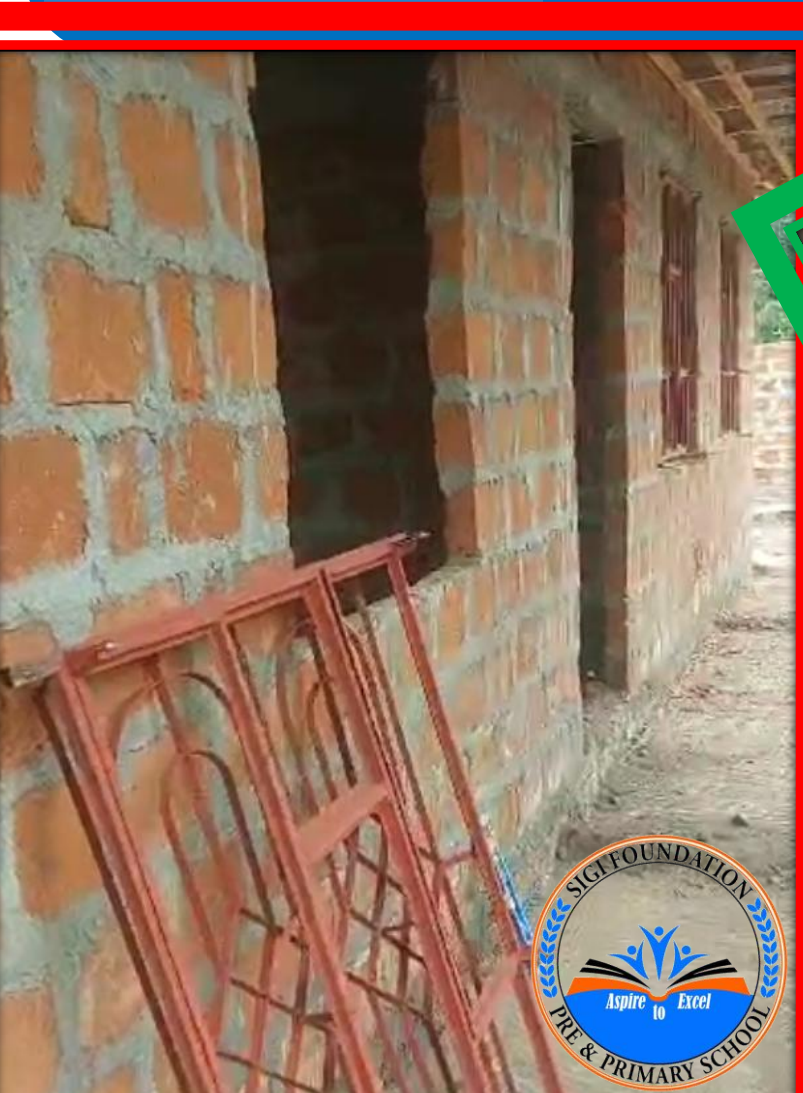

From August to November 2025, the SIGI Foundation School reached an important milestone in its mission to create a safe, inspiring environment for learning. Three new classrooms were successfully constructed during this period, expanding our capacity to welcome more learners. In addition, significant repairs were completed, including the installation of new doors and windows to enhance security, ventilation, and overall classroom comfort. These improvements reflect our commitment to providing a nurturing, child-friendly space where students can learn and grow with dignity.

Supporter Spotlight

We are delighted to report on the successful completion of **ROCKANDHIKE2025**, where our devoted supporter **Lee Wyser** walked an incredible 100KM in Zurich to raise funds for the SIGI Foundation School. Her dedication, endurance, and compassion turned this challenge into a meaningful contribution toward the continued development of our children's education. Lee's achievement not only raised financial support but also strengthened awareness of our mission within the global community. We extend our heartfelt appreciation for her remarkable effort and generous spirit.

With Gratitude to All Donors and Supporters

To all our donors, partners, and friends of the SIGI Foundation School—**thank you**. Your contributions, whether financial, material, or moral, are the backbone of everything we achieve. Your continued support enables us to build classrooms, empower teachers, and give children the opportunity to learn in an environment filled with respect and possibility. We deeply appreciate your unwavering commitment.

“Thank you for believing in the SIGI Foundation School. Together, we build more than classrooms—we build futures.”

A Living, Growing Community

Beyond construction and fundraising, these past months have been filled with the energy of a community growing stronger together. Our teachers continue to innovate, our students bring life to every corner of the school, and parents remain actively engaged in shaping the future of their children's education. As we look ahead, we are excited to transform these developments into even greater opportunities—reminding us all that education is not only a service but a shared journey of transformation.
